

About MARC

The Medicare Advocacy Recovery Coalition (MARC) was formed in September of 2008 to advocate on behalf of beneficiaries and affected companies for the improvement of the Medicare Secondary Payer (MSP) program. Formed by a group of affected stakeholders, the Coalition has been collaborating and developing strategic alliances with Congressional leaders and government agencies to focus on implementation of MSP reporting, and on the broader issue of MSP reform. MARC's membership represents virtually every sector impacted by MSP, including plaintiffs and defense attorneys, brokers, insureds, insurers, insurance and trade associations, self-insureds and third-party administrators.

MARC's Purpose

- Ensure that Medicare beneficiaries receive coordinated and uninterrupted coverage for claims involving secondary payer issues;
- Facilitate national level coordination, collaboration, and communication among the member organizations regarding Medicare reimbursement and recovery policy;
- Formulate policy recommendations to affect the member interests with respect to Medicare reimbursement and recovery procedures; and
- Develop and implement legislative and regulatory improvements to ensure that the secondary payer program works effectively, efficiently and economically.

MARC Member Organizations
